

**Crystal Safety Services**

*"Providing Clarity to Health & Safety"*

### The Industry Facts

2.2 million people work in Britain's construction industry, making it the country's biggest industry. It is also one of the most dangerous. In the last 25 years, over 2,800 people have died from injuries they received as a result of construction work. Many more have been injured or made ill.

## Managing Safety in Construction

At Crystal Safety our team of consultants and trainers have the experience, knowledge and tools to deliver services which our clients consider practical, beneficial and cost effective, demonstrating that health and safety is an important part of managing a successful construction project.

The team at Crystal Safety pride themselves on providing a responsive and professional service to our customers who in turn have referred us to many other business contacts, enabling our continued growth.

Our core services are divided into the following areas:

- Health & Safety Management
- Asbestos Management
- Environmental Management
- Food Safety Management

Within each of these areas there are a suite of services and training courses available to our clients. Fact sheets on all of our services and course outlines for all courses are available from our website
